Explosion Proof Overhead Hoist Crane Radio Remote Control 12 Ch 2 Speed 18~440V

Key features

- Explosion Proof: Engineered for use in hazardous environments, meeting safety regulations.
- Voltage Range: Compatible with 18~440V power supply for versatile applications.
- Speed Options: Two-speed operation for precise lifting and lowering control.
- 3 Year Warranty, Customer Support and Service in the USA

Explosion Proof Description

The Explosion Proof Overhead Hoist Crane is designed for safe and effective lifting in hazardous environments. This hoist features a sophisticated radio remote control system with 12 channels, allowing for flexible and efficient operation. With two-speed settings and a voltage range of 18 to 440V, it is adaptable for a wide range of industrial applications. Built to meet rigorous safety standards, this hoist ensures reliable performance while minimizing risks in explosive atmospheres.

Technical Specifications

FCC ID	OFNF21	Transmitter Power	≤10 dBm
Transmitter Power Supply	4 AA Batteries	Wireless Frequency Range	VHF: 310-331 MHz; UHF: 425-446MHz
Material	Glass-Fiber PA	IEC Motor Protection	IP65
Control Distance	Approx 100m (200 meters is customized)	Operating Temperature Range	-40°C ~ 185°F / -40°C ~ 85°C
Safety Code	32 bits (4.3 billion)	Warranty	3 Year

EF-24 TRANSMITTER Explosion-proof design

MODEL: EF24–TX ITEM CODE: 924–400–001 Dimension:186 x 61 x 51 mm Weight: 280g(without batteries)

EF24-8S/D

EF24-6S/D

EF24-10S/D EF24-12S/D

- Product features
 10 double steps pushbuttons + EMERGENCY STOP + START KEY + SPARE
 20 control contrators
 21 Battary volges warning device, the power supply is cut of during low power
 22 Battary volges warning device, the power supply is cut of during low power
 23 Battary volges warning device, the power supply is cut of during low power
 24 Battary volges warning device, the power supply is cut of during low power
 25 Battary volges warning device, the power supply is cut of during low power
 25 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges warning device, the power supply is cut of during low power
 26 Battary volges battorn function to pompari refractor
 27 Battary volges be programmed to start, toggles, interlock or non-interlock
 28 Battary examples the programmed to start, toggles, interlock or normal, etc
 28 Battary examples that more supply interlock or normal, etc
 28 Battary examples that more supply interlock or normal, etc
 28 Battary examples that more supply interlock or normal, etc

opposite operation.

Safety of Receiver Operation The system is with explosion-proof casing and inner electronic circuit safe solution and it meets ATEX rules and strictly compiles with explosion-proof standard. The emergency top circuit and control with duplex redundant and safety relay with foreibly guided (mechanically linked) contacts which make it meets the E-stop class Gat.3 in The European mechanical equiment standard. E-stop class class in the European international equipment standard. To ensure safety, continuous wireless communication device make receiver stop passively when the radio signal is disconnected or is interfered. Buttons can be programmed to interlock to avoid

0

Receiver Parameters: EF24-RXC

Material	Glass-Fiber PA	
Enclosure protection class	IP65	
Frequency range	VHF: 310~331MHz; UHF: 425~446MHz	
Receiver sensitivity	-110dBm	
Receiver power supply	18~65V AC/DC、65~440V AC/DC (optional)	
Output contactor capacity	8A sealed relay output (with AC 250V/10A relays, 10A fuse)	
Control distance	Approx 100m (200 meters is customized)	
Safety code	32 bits (4.3 billion)	
Temperature range	-40°C~+85°C	

Shell is of antistatic material, and adding antistatic agent, the maximum enhancement in the anti-static grade products.

Application:

Typical applications: It can be widely used in offshore oil field, oil tankers, onshore oilfield, chemical industry, oil refinery, coal mines, paint factory and aircraft maintenance factory.
