

2 Channels Telecontrol PWA Series Receiver Board 220V

Key features

- Dual Channel Operation: Manage two separate devices independently for enhanced flexibility and efficiency.
- 220V Compatibility: Specifically designed for use with 220V electrical systems, ensuring broad applicability.
- Durable Construction: Built to withstand demanding environments for long-lasting performance.

2 Channels Telecontrol

The 2 Channels Telecontrol PWA Series Receiver Board (220V) is a robust and efficient component designed for seamless integration with remote control systems. This receiver board enables reliable communication with compatible transmitters, allowing for the control of two independent channels. Its durable design makes it suitable for a wide range of applications, from industrial settings to residential automation.

Technical Specifications

FCC ID	OFNF21	Safety Code	32 bits (4.3 billion)
Transmitter Power Supply	2 AA batteries		

Unit Weight & Dimensions

Total Unit Weight	0.6 lbs / 1 Kg
--------------------------	----------------

Packaging Weight & Dimensions

Package 1 Net Weight	0.6 lbs / 0 Kg
Package 1 Width	6 in / 15.24 cm
Package 1 Gross Weight	0.7 lbs / 0 Kg
Package 1 Height	3 in / 7.62 cm
Package 1 Length	10 in / 25.4 cm
