

EATON Step down industrial control transformer

Key features

- Voltage Rating: Various models available for different input and output voltage requirements (e.g., 480V to 120V, 240V to 24V).
- Durable Construction: Designed to withstand industrial environments, featuring robust housing and insulation materials.
- Safety Isolation: Provides electrical isolation between high and low voltage circuits to enhance safety for operators and equipment.

EATON Step down industrial control transformer Description

The EATON Step Down Industrial Control Transformer is engineered to efficiently convert high voltage electricity into a lower voltage suitable for powering control circuits and other electrical devices. This transformer is essential for ensuring safe operation in various industrial settings, providing reliability and performance.

Technical Specifications

Unit Weight & Dimensions

Total Unit Weight	4.5 lbs / 3 Kg
--------------------------	----------------

Packaging Weight & Dimensions

Package 1 Net Weight	4.5 lbs / 2 Kg
-----------------------------	----------------

Package 1 Width	5 in / 12.7 cm
------------------------	----------------

Package 1 Gross Weight	4.8 lbs / 2 Kg
-------------------------------	----------------

Package 1 Height	5 in / 12.7 cm
-------------------------	----------------

Package 1 Length	5 in / 12.7 cm
-------------------------	----------------
