

EATON Circuit Breaker 35 Amps 3 Poles 600 VAC

Key features

- Voltage Rating: 600 VAC for use in high-voltage applications
- Durable Construction: Engineered for long-lasting reliability in demanding conditions
- Reliable Protection: Protects against overloads and short circuits, ensuring the safety of connected devices
- 3 Year Warranty, Customer Support and Service in the USA

EATON Circuit Breaker 35 Amps 3 Poles 600 VAC Description

The EATON Circuit Breaker is a robust protective device designed to safeguard electrical circuits from overloads and short circuits. With a rating of 35 Amps and featuring 3 poles, this circuit breaker is well-suited for applications requiring a maximum voltage of 600 VAC, ensuring reliable performance in industrial and commercial environments.

Technical Specifications

Warranty	3 Year
