

SEW Eurodrive Parallel shaft helical gearmotor 1.1 kw

Key features

- Power Rating: 1.1 kW motor capacity, ideal for medium to high load applications, providing the necessary power for efficient operation.
- Parallel Shaft Design: This compact configuration saves space while maintaining effective power transmission, perfect for installations with limited room.
- Helical Gear Technology: Offers quiet and smooth operation, along with enhanced load capacity and durability compared to traditional gear designs.

SEW Eurodrive Parallel shaft helical gearmotor Description

SEW Eurodrive Parallel Shaft Helical Gearmotor (1.1 kW) is designed for optimal efficiency and reliability in a variety of industrial applications. Its robust design ensures smooth operation and high torque output, making it suitable for demanding environments.
