

SKIDDING CONE

Key features

- Durable Construction: Made from high-quality materials to withstand the rigors of skidding and hauling operations.
- Efficient Skidding: Designed to assist in the movement and control of logs or heavy materials, reducing friction and ease of transport.
- Compact and Lightweight: Easy to handle and maneuver, facilitating efficient operation in various environments.
- 3 Year Warranty, Customer Support and Service in the USA

MADE IN CANADA

Winch Description

The Skidding Cone is designed to facilitate smooth and efficient skidding operations. Constructed from durable materials, it helps guide and protect logs or other materials during transportation. Its design ensures stability and reduces friction, making it ideal for forestry and heavy-duty applications where precise control and safe handling are essential.
