

MADE IN CANADA

PIVOTING ANCHOR FOR VERTICAL PULL SUPPORTS

Key features

- Pivoting Design: Allows for dynamic movement and adjustment, accommodating various angles and positions for vertical pulling.
- Heavy-Duty Construction: Built from robust materials to support high loads and provide stable performance.
- Versatile Application: Ideal for use in vertical pulling tasks, including lifting and rigging operations.
- 3 Year Warranty, Customer Support and Service in the USA

Winch Description

The Pivoting Anchor for Vertical Pull Supports is designed to provide stable and adaptable anchoring for vertical pulling applications. Its pivoting mechanism allows for flexible positioning, ensuring optimal alignment and support during operation. Built for durability and strength, this anchor is ideal for heavy-duty lifting and rigging tasks where precise control and reliable performance are required.
