Key features

- 1 Year Warranty, Customer Support and Service in the USA

MADE IN CANADA

Winch Description<

1550 lb Wireless Lifting Winch are used for lifting material. Winches usually ship within 1-3 business days after ordering. Please call us at 1 (800) 971-8061 for any special requests. The Highest Quality, most Technologically Advanced Winches in the Industry. This winch is powered by Honda's 4-stroke GX-35cc engine. In addition to being extremely popular with hunters looking for a lightweight, compact tool, this model is also appreciated by occasional loggers. Weighing only 9.5 kg, it offers 700 kg of pulling power single line. EFFICIENT and very easy to carry, you'll be equipped to retrieve your game, no matter the conditions. Use the pwcw3000 Portable Capstan winch with any length of 10 mm double braided polyester low stretch rope, the rope is tied to the object to be moved and wound three (or four) times around the capstan drum. When the engine is running, the capstan drum rotates continuously and the friction created by pulling in the free end of the rope pulls the object. *Note: One (1) anchor polyester sling 60 mm x 2 m is always included with every winch.

Technical Specifications

Rated Load Capacity	Pulling Single Line: 1600 lb / 700 kg Pulling Double Line: 3200 lb / 1400 kg Not for Lifting - No apto para Izaje	Recommended Wire Rope	Fiber Ø 3/8" (10 mm)
Speed (f/m) / min	33 ft/min 10 m/min	Drum Type	Capstan Cabrestante
Number of Speeds	1 Speed	Standards Compliance	CE
Motor Brand and Model	Honda GX35	Made in	Canada
