

## Step down industrial control transformer 600 VAC to 120/240 VAC 2.08/1.04 A

### Key features

- Voltage Conversion: Steps down 600 VAC input to provide 120/240 VAC output, suitable for a wide range of applications.
- Compact Design: Space-efficient design allows for easy installation in control panels and electrical enclosures.
- Versatile Applications: Ideal for use in machinery, automation systems, and other industrial control applications where reliable voltage conversion is necessary.

### Step down industrial control transformer Description

This step-down industrial control transformer is designed to efficiently convert 600 VAC to 120/240 VAC, making it an essential component for various industrial applications. With robust construction and reliable performance, it ensures optimal power distribution for control circuits and equipment.

## Technical Specifications

### Unit Weight & Dimensions

<b>Total Unit Weight</b>	4 lbs / 2 Kg
--------------------------	--------------

### Packaging Weight & Dimensions

<b>Package 1 Net Weight</b>	4 lbs / 2 Kg
-----------------------------	--------------

<b>Package 1 Width</b>	7 in / 17.78 cm
------------------------	-----------------

<b>Package 1 Gross Weight</b>	4 lbs / 2 Kg
-------------------------------	--------------

<b>Package 1 Height</b>	7 in / 17.78 cm
-------------------------	-----------------

<b>Package 1 Length</b>	7 in / 17.78 cm
-------------------------	-----------------
