

Motor Starting Capacitor for PWA1100Ru , PWX1100Ru , PWA1100u and PWX1100u Generation 3

Key features

- Enhanced Startup Performance: Delivers a significant initial boost of power to the motor, facilitating smooth and efficient starts.
- Durable Construction: Built with high-quality materials to withstand the demands of industrial environments, ensuring longevity and reliability.
- Easy Installation: Engineered for straightforward installation

Motor Starting Capacitor Description

The Motor Starting Capacitor is an essential component for the PWA1100Ru, PWX1100Ru, PWA1100u, and PWX1100u Generation 3 hoists. This capacitor provides the necessary boost of power during startup, ensuring efficient motor operation and reducing the risk of motor damage.

Technical Specifications

Unit Weight & Dimensions

Total Unit Weight	1 lbs / 1 Kg
--------------------------	--------------

Packaging Weight & Dimensions

Package 1 Net Weight	1 lbs / 0 Kg
-----------------------------	--------------

Package 1 Width	5 in / 12.7 cm
------------------------	----------------

Package 1 Gross Weight	1 lbs / 0 Kg
-------------------------------	--------------

Package 1 Height	5 in / 12.7 cm
-------------------------	----------------

Package 1 Length	5 in / 12.7 cm
-------------------------	----------------
