

Stainless Steel Wire rope IWRC 4 mm 7X19

Key features

- 4 mm Diameter: Combines flexibility and strength, making it suitable for medium-duty lifting and rigging tasks.
- 7x19 Construction: Offers excellent flexibility with increased resistance to fatigue, ensuring smooth performance in demanding environments.
- Independent Wire Rope Core (IWRC): Provides superior strength and support compared to fiber core alternatives, improving load capacity and durability.
- 1 Year Warranty, Customer Support and Service in the USA

Stainless Steel Wire rope IWRC 4 mm 7X19 Description

The Stainless Steel Wire Rope IWRC 4 mm 7x19 is a high-quality, corrosion-resistant wire rope designed for strength and durability. With an independent wire rope core (IWRC) and a 7x19 construction—composed of 7 strands with 19 wires per strand—this wire rope offers superior flexibility and a high breaking load. Ideal for marine environments, rigging, lifting, and architectural applications,
