

Electric Motor 220V 50/60HZ Single phase for PWG600

Key features

- **Powerful and Efficient:** Delivers consistent power to the PWG600 hoist, ensuring smooth and reliable operation for lifting and lowering applications.
- **Voltage Compatibility:** Operates on 220V, supporting both 50Hz and 60Hz electrical systems, making it versatile and suitable for different geographical regions and power supply configurations.
- **Durable Construction:** Built to withstand heavy-duty usage, the motor is made from high-quality materials to ensure long-lasting performance and resistance to wear and tear.
- **3 Year Warranty, Customer Support and Service in the USA**

Electric Motor 220V 50/60HZ Single phase Description

The Electric Motor 220V 50/60HZ Single Phase for PWG600 is a high-performance motor designed for use with the PWG600 series of hoists. This motor is engineered to deliver reliable power and efficiency, ensuring smooth operation of the hoist system. With a single-phase, 220V configuration and compatibility with both 50Hz and 60Hz electrical systems, it is ideal for a variety of industrial and commercial lifting applications.
