

Original Wire rope for PWG600

Key features

- **High-Strength Construction:** Built with high-tensile steel, providing superior strength to handle heavy loads and harsh operating conditions.
- **Enhanced Durability:** Designed for long-lasting performance, with resistance to wear, abrasion, and corrosion, making it ideal for demanding environments.
- **Smooth Operation:** Engineered for smooth spooling and unspooling, reducing wear on both the rope and the winch system.
- **3 Year Warranty, Customer Support and Service in the USA**

Ø 17/64 in x 197 ft Galvanized Cable Reel
Item #:21015100

Length: 1 ft
Cable Diameter: 17/64 ft inches
WLL (5:1): 840 lbs
Breaking Load: 4200 lbs
Weight (per foot): 0.065 lbs

Original Wire rope for PWG600 Description

The Original Wire Rope for PWG600 is a high-quality, durable wire rope specifically designed for use with the PWG600 winch system. This wire rope is engineered to provide excellent strength, flexibility, and longevity, ensuring optimal performance during heavy-duty lifting and pulling operations. Ideal for industrial and construction applications, it is designed to withstand the toughest conditions and maintain reliability in high-stress environments.
