

Secondary Shaft Couple for PWK1250i

Key features

- **Specific Compatibility:** Designed specifically for the PWK1250i model, ensuring a precise fit for optimal performance.
- **Robust Construction:** Made from high-quality materials that provide excellent durability and resistance to wear and stress, ensuring long-lasting use.
- **Efficient Power Transfer:** Facilitates smooth and effective coupling between shafts, minimizing energy loss and enhancing operational efficiency.
- **3 Year Warranty, Customer Support and Service in the USA**

Secondary Shaft Couple for PWK1250i Description

The Secondary Shaft Coupling for the PWK1250i is a crucial component that connects the secondary shaft to the reducer, ensuring efficient power transmission and operational reliability. This coupling is designed to maintain alignment and absorb any misalignment or vibrations during operation.
