

Flat Key - Part 15 - for third-level planet frame PWK12600i

Key features

- **Perfect Compatibility:** Designed specifically for the third-level planet frame of the PWK12600i hoist.
- **Secure Torque Transmission:** Ensures proper engagement between the shaft and planet frame to prevent slippage.
- **Durable Construction:** Made from robust materials to withstand high stress and heavy-duty use.

Flat Key - Part 15 Description

The Flat Key (Part 15) is a vital component designed for the third-level planet frame of the PWK12600i hoist. It ensures secure torque transmission by locking the shaft and the planet frame together, enabling efficient and stable operation.
