

Second level planet frame carrier - Part 26 - for PWK12600i

Key features

- **Precision Engineering:** Manufactured with high precision to ensure proper alignment and smooth operation within the planetary gear system.
- **Heavy-Duty Performance:** Built to handle high torque and stress, ensuring reliable performance in demanding industrial environments.
- **Durable Construction:** Made from high-strength materials to withstand wear and tear over time, ensuring long-lasting durability.

Second level planet frame carrier - Part 26 Description

The Second Level Planet Frame Carrier (Part 26) for the PWK12600i is an integral component of the planetary gear system. It supports the second level of the planetary gears, enabling smooth rotation and efficient power transmission. This part is designed for high performance and durability, ensuring that the hoist operates reliably even under heavy loads.
