

Motor with Brake PWTP7000 45KW 1450RPM 380V 50HZ

Key features

- Power Rating: 45 kW, providing substantial power for demanding tasks.
- Speed: 1450 RPM, optimized for efficient operation and torque delivery.
- Voltage: 380V, suitable for standard industrial power systems.
- 3 Year Warranty, Customer Support and Service in the USA

Motor with Brake PWTP7000 Description

The Motor Brake PWTP7000 (45 kW, 1450 RPM) is engineered for robust industrial applications requiring reliable performance and effective braking. With a voltage rating of 380V at 50Hz, this motor is ideal for various heavy-duty machinery.
