

## Secondary Shaft Couple for PWK4300i

### Key features

- **Model Compatibility:** Specifically designed for the PWK4300i, ensuring a perfect fit and seamless integration within the winch assembly.
- **Robust Construction:** Made from high-quality materials that provide excellent strength and durability, capable of withstanding significant loads and stresses.
- **Efficient Power Transmission:** Facilitates smooth transfer of torque and motion between connected components, enhancing overall system performance.
- **3 Year Warranty, Customer Support and Service in the USA**

### Secondary Shaft Couple for PWK4300i Description

The Secondary Shaft Couple for the PWK4300i is a crucial component designed to connect and align the secondary shaft within the winch system. This part plays an essential role in ensuring effective power transmission and operational efficiency.

## Technical Specifications

Warranty	3 Year
