Base flange motor side for PWLD20000

Key features

- **Model Compatibility:** Specifically designed for the PWLD20000, ensuring a perfect fit and seamless integration with the motor and winch assembly.
- **Robust Construction:** Made from high-quality materials that offer excellent strength and durability, capable of withstanding heavy loads and harsh operating conditions.
- **Secure Mounting:** Engineered to provide a stable base for the motor, minimizing vibrations and ensuring optimal performance during operation.
- **3 Year Warranty, Customer Support and Service in the USA**

Base flange motor side for PWLD20000 Description

The Base Flange Motor Side for the PWLD20000 is a crucial component that provides a secure mounting point for the motor, ensuring stability and alignment within the winch system. This flange is designed to facilitate efficient operation and enhance the overall performance of the equipment.
