

Base flange reducer side for PWLD20000

Key features

- **Model Compatibility:** Specifically designed for the PWLD20000, ensuring perfect alignment and seamless integration with the reducer and winch components.
- **Robust Construction:** Made from high-quality, durable materials that withstand heavy loads and resist wear, making it suitable for demanding applications.
- **Stable Connection:** Provides a solid mounting base for the reducer, minimizing vibrations and enhancing stability during operation.
- **3 Year Warranty, Customer Support and Service in the USA**

Base flange reducer side for PWLD20000 Description

The Base Flange Reducer Side for the PWLD20000 is an essential component that ensures a secure and stable connection between the reducer and the winch assembly. This flange plays a critical role in maintaining the structural integrity and operational efficiency of the winch system.

Technical Specifications

Warranty	3 Year
