

Carbons set for PWLD8500 and PWLD12000 12V / 24V

Key features

- Model Compatibility: Specifically designed for PWLD8500 and PWLD12000 winches operating on both 12V and 24V systems, ensuring perfect fit and functionality.
- High-Quality Materials: Made from durable, conductive materials that provide excellent electrical conductivity while minimizing wear during operation.
- Enhanced Performance: Engineered to promote efficient energy transfer, resulting in improved motor performance and longevity.
- 3 Year Warranty, Customer Support and Service in the USA

Carbons set for PWLD8500 and PWLD12000 12V/24V Description

The Carbons Set for the PWLD8500 and PWLD12000 winches is an essential component for ensuring optimal motor performance. These carbon brushes play a crucial role in conducting electricity within the motor, facilitating smooth operation and efficient power transfer.
