

## Carbons assembly for PWLD8500 and PWLD12000 12 / 24 Volts

### Key features

- Model Compatibility: Specifically engineered for PWLD8500 and PWLD12000 winches operating at both 12V and 24V, guaranteeing a perfect fit.
- Premium Quality Materials: Constructed from high-grade conductive materials that provide excellent electrical conductivity while reducing wear and tear.
- Improved Performance: Designed to enhance energy transfer efficiency, resulting in reliable motor operation and increased lifespan.
- 3 Year Warranty, Customer Support and Service in the USA

### Carbons assembly for PWLD8500 and PWLD12000 12 / 24 Volts Description

The Carbons Assembly for the PWLD8500 and PWLD12000 winches is a crucial component designed to facilitate efficient electrical conduction within the motor. This assembly includes carbon brushes that ensure smooth operation and optimal performance during lifting tasks.
