Prowinch Electric DC Winches

All of our electric DC winches are created with the goal of offering the best price-performance ratio. Key components such as lifespan factors are constantly tested and improved in order to offer the best product for the price.

Key Components

All internal components have been upgraded to meet the highest quality standards. Key electronic components are produced by American or German brands, and we use American-made lubricants to ensure the lifespan of gears and reducers. Final assembly and all tests are performed locally at Prowinch facility before shipping to ensure that every unit meets the corresponding standard.

Control System

This winch includes a 12V wired remote control. The winch contains the best electric components available on the market, and everything is made, assembled, and tested locally in the US, Chile, or Colombia.

Braking System

Prowinch electric DC winches include a sliding ring gear clutch and an in drum automatic brake. Automatic brake system designed to automatically engage immediately upon any loss of power.
