

## Fast Gear 86 ft/min for PWRC2 and PWQE2T

### Key features

- **Lifting Speed:** Achieves a rapid lifting speed of 86 ft/min, facilitating efficient load handling.
- **Compatibility:** Specifically designed for seamless integration with PWRC2 and PWQE2T models.
- **Durable Construction:** Built to withstand the rigors of industrial use, ensuring reliability and longevity.
- **3 Year Warranty, Customer Support and Service in the USA**

### Fast Gear 86 ft/min for PWRC2 and PWQE2T Description

The Fast Gear for PWRC2 and PWQE2T is engineered to enhance the efficiency and speed of your hoisting operations, offering a remarkable lifting speed of 86 feet per minute. This high-performance gear is designed to meet the demands of various industrial applications, enabling quick and effective load handling. Constructed from robust materials, it ensures long-lasting durability and reliable performance, making it an essential component for your lifting system.
