

## Control Transformer 220/380/440-24V 50 VA all series PWR 2 ton and up

### Key features

- **Input Voltage Range:** The transformer supports 220V, 380V, or 440V AC, which allows it to be used globally across different electrical standards and environments.
- **Output Voltage:** 24V AC - The transformer reduces the input voltage to a standardized 24V AC, which is ideal for controlling low-voltage components in winch and hoist systems.
- **Power Rating:** 50 VA (Volt-Amps) - The 50 VA rating provides more power compared to smaller transformers, making it suitable for heavier-duty systems (such as those rated for 2 tons and up).

### Control Transformer Description

The Control Transformer 220/380/440-24V 50 VA is designed for PWR series hoists and winches with a capacity of 2 tons and up. This transformer steps down high voltage AC power to a more manageable 24V AC, providing reliable power for control circuits in heavier-duty hoists and winches.

## Technical Specifications

### Unit Weight & Dimensions

<b>Total Unit Weight</b>	2.6 lbs / 2 Kg
--------------------------	----------------

### Packaging Weight & Dimensions

<b>Package 1 Net Weight</b>	2.6 lbs / 1 Kg
-----------------------------	----------------

<b>Package 1 Width</b>	5 in / 12.7 cm
------------------------	----------------

<b>Package 1 Gross Weight</b>	2.7 lbs / 1 Kg
-------------------------------	----------------

<b>Package 1 Height</b>	5 in / 12.7 cm
-------------------------	----------------

<b>Package 1 Length</b>	5 in / 12.7 cm
-------------------------	----------------
