

Control Transformer 220/380/440-48V 50 VA all series PWR up to 3 ton

Key features

- **Input Voltage Range:** The transformer supports 220V, 380V, or 440V AC, making it compatible with a wide range of electrical systems used worldwide.
- **Power Rating:** 50 VA (Volt-Amps) - The 50 VA rating ensures enough power for the control circuits and other essential components in medium-duty systems, particularly those in the PWR series with a capacity of up to 3 tons.
- **Compatibility:** Specifically designed for use with PWR series hoists and winches, particularly those rated for up to 3 tons. This makes it suitable for a wide range of industrial and commercial applications.

Control Transformer Description

The Control Transformer 220/380/440-48V 50 VA is designed for PWR series hoists and winches with a capacity of up to 3 tons. It steps down the high-voltage AC supply to a manageable 48V AC, providing reliable power for the control circuits of medium to heavy-duty hoist and winch systems.

Technical Specifications

Unit Weight & Dimensions

Total Unit Weight	0.5 lbs / 1 Kg
--------------------------	----------------

Packaging Weight & Dimensions

Package 1 Net Weight	0.5 lbs / 0 Kg
-----------------------------	----------------

Package 1 Width	5 in / 12.7 cm
------------------------	----------------

Package 1 Gross Weight	1 lbs / 0 Kg
-------------------------------	--------------

Package 1 Height	5 in / 12.7 cm
-------------------------	----------------

Package 1 Length	5 in / 12.7 cm
