

Complete Brake SET for PWRF4000, PWRF2000 Single Phase

Key features

- **Compatibility:** Specifically designed for PWRF4000 and PWRF2000 single-phase hoist models, ensuring a perfect fit and optimal functionality.
- **Complete System:** Includes all the necessary components for a fully functional brake system, reducing the need for separate parts purchases and simplifying installation.
- **Durable Construction:** Built from high-quality materials to withstand the demanding conditions of industrial environments, ensuring long-lasting performance.

Complete Brake SET Description

The Complete Brake Set for PWRF4000 and PWRF2000 single-phase hoists is a fully integrated braking system designed to ensure safe, efficient, and responsive braking performance. This set includes all the necessary components to replace or upgrade the brake system, providing consistent stopping power during both lifting and lowering operations. Ideal for heavy-duty hoist applications, the brake set enhances operational safety by offering reliable performance under demanding conditions.
