

16 ton 380V Electric Wire Rope Hoist H5 Duty

Key features

- Lifting Capacity: Supports up to 16 tons, ideal for heavy-duty lifting tasks.
- Voltage: Operates on 380V, suitable for industrial electrical systems.
- Wire Rope: Features a durable wire rope, ensuring strength and longevity for heavy lifting tasks.
- Smooth Operation: Offers precise and smooth control for lifting, enhancing safety and operational efficiency.
- 3 Year Warranty, Customer Support and Service in the USA

Electric Wire Rope Hoist Description

Our 16 Tons Electric Wire Rope Hoist Class M6/H5 have a compact structure, lightweight but high strength, precise positioning to improve the working efficiency. Modular design and multiple options can meet various demands of customers. High-quality mechanical & electronic components can ensure good working performance. Low operation cost, green energy, and environment friendly. Safe and reliable, running monitoring simple and convenient maintenance with high production efficiency improved by precise positioning.

Technical Specifications

Number of Speeds	2 Speed	Control Voltage	48V
Capacity Range	8	Humidity	<85%
Voltage	3 Phase 380/440~480V 50/60Hz	Temperature	-4°~104° F / -20°~40° C
Insulation Grade	F	Standards Compliance	ASME HST-4 , ASME B30.16 , B30.17 , EN14492-2 , EN60204-32
IEC Motor Protection	IP55	Warranty	3 Year
IEC Electric Control Box Protection	IP65
