

Bottom Load Block Hook Doble Line for PWJF20H4-2SW, PWJF20H4-1SW, PWJT20H4-2SW, PWJT20H4-1SW

Key features

- High Load Capacity: Supports substantial lifting needs with a double line configuration, enhancing your hoisting efficiency.
- Heavy-Duty Design: Constructed from high-strength materials to endure rigorous usage in challenging conditions.
- Secure Locking Mechanism: Equipped with a reliable locking system to prevent accidental disengagement during operation.
- 1 Year Warranty, Customer Support and Service in the USA

Bottom Load Block Hook Doble Line for PWJF20H4-2SW, PWJF20H4-1SW, PWJT20H4-2SW, PWJT20H4-1SW Description

The Bottom Load Block Hook Double Line is engineered for high-capacity lifting and rigging applications, ensuring maximum efficiency and safety. Designed specifically for compatibility with PWJF20H4-2SW, PWJF20H4-1SW, PWJT20H4-2SW, and PWJT20H4-1SW hoists, this robust hook is essential for demanding industrial environments. Its durable construction and innovative design provide reliability and performance in heavy-duty applications.
