

## 1/2 ton Electric Chain Hoist 1 Speed 208~240V / 440~480V 3Ø 60HZ 13ft G100 Nickel Duty H4/M5

### Key features

- Lifting Capacity: 1/2 ton (1,000 lbs)
- Power Supply Options: 208~240V / 440~480V, 3-phase, 60Hz
- Safety Features: Built-in overload protection and emergency stop for added safety
- 3 Year Warranty, Customer Support and Service in the USA

### Electric Chain Hoist Description

The 1/2 Ton Electric Chain Hoist is a powerful and reliable lifting solution designed for a variety of industrial applications. With a lifting capacity of 1/2 ton, this hoist operates efficiently on dual voltage options of 208~240V / 440~480V, 3-phase, 60Hz. Featuring a single speed for consistent operation, it ensures dependable performance for both heavy and light tasks. Built for durability and safety, this hoist is suitable for use in demanding environments.

### Our Dedication to Excellence:

At Prowinch, our unwavering commitment to delivering the best price-performance ratio is evident in every Electric Chain Hoist we produce. We subject each unit to meticulous testing and continuously enhance key components, considering factors that influence lifespan. This commitment ensures that we consistently provide a superior product at an optimal price point.

### Enhanced Components:

Internally, each component has undergone substantial upgrades to meet the highest quality standards. Key electronic parts are carefully sourced from reputable brands, while locally manufactured lubricants are employed to fortify the durability of gears and reducers. The final assembly and testing processes take place in the US, guaranteeing that every unit surpasses corresponding standards.

### Single Speed Efficiency:

Our Single Speed Electric Chain Hoist is designed for straightforward yet efficient lifting operations. Perfect for applications where a consistent lifting speed is paramount, this hoist offers reliability and ease of use.

### Duty Classification:

Choosing the right unit is pivotal, and our M5-rated H4 hoists stand out for their excellence in high-volume handling. Tailored for environments like steel warehouses, machine shops, fabricating plants, and mills, these hoists boast a 50% maximum operational time per hour for uniformly distributed work periods. They can efficiently handle up to 300 starts per hour. In scenarios of infrequent work periods, the hoist can operate for 30 minutes from a cold start with up to 300 starts per hour. Operational time ratings adhere to a 65% load factor, following ASME HST-1-2012 guidelines.

### Control System:

The Single Speed Electric Chain Hoist comes with a standard pendant control, designed with a length 4 feet less than the lifting height, ensuring easy operation from ground level. For added convenience, an optional wireless control is available.

## Advanced Braking System:

Our hoists feature an electromagnetic brake system, rigorously tested at 125% of the hoist capacity. This system is intelligently designed to engage automatically upon any loss of power, ensuring not only enhanced safety but also precise control over the operation of the hoist.
