

Wireless interface for 220V 50/60HZ Single phase

Key features

- **Wireless Connectivity:** Provides a hassle-free connection without the need for traditional wiring.
- **220V Compatibility:** Specifically designed for single-phase systems, ensuring optimal performance.
- **Dual Frequency Operation:** Functions seamlessly at both 50Hz and 60Hz, making it suitable for international use.
- **3 Year Warranty, Customer Support and Service in the USA**

Wireless interface for 220V 50/60HZ Single phase Description

This Wireless Interface is designed for efficient and reliable connectivity in 220V single-phase electrical systems operating at both 50Hz and 60Hz. Ideal for a variety of applications, it eliminates the need for cumbersome wiring while ensuring safe and stable power transmission.

Technical Specifications

FCC ID	OFNF21	Warranty	3 Year
