

Power cable Suitable for PWTLC350 (Price per meter)

Key features

- **Compatibility:** Specifically designed for PWTLC350 systems to ensure seamless integration.
- **High Conductivity:** Made from quality copper for excellent electrical conductivity and minimal energy loss.
- **Durable Insulation:** Engineered with tough insulation to protect against abrasion, moisture, and environmental factors.
- **1 Year Warranty, Customer Support and Service in the USA**

Power cable Suitable Description

This Power Cable is specifically designed for use with the PWTLC350 system, ensuring reliable power transmission and optimal performance in industrial applications. With robust construction and excellent conductivity, this cable is ideal for a variety of demanding environments.
