

Step-Up Transformer 208 to 240V 3kW

Key features

- Voltage Conversion: Converts 208V input to 240V output, ensuring compatibility with equipment that requires 240V.
- Power Rating: Provides 3kW of power, ideal for medium to high-power demand applications.
- Durable Build: Constructed with high-quality materials for long-lasting durability and consistent performance.

Step-Up Transformer 208 to 240V 3kW Description

This Step-Up Transformer is designed to convert 208V input to 240V output, with a power rating of 3kW, making it ideal for powering equipment that requires 240V while using a 208V power supply. Its robust construction ensures reliable and efficient operation in industrial, commercial, and residential settings.

Technical Specifications

Unit Weight & Dimensions

Total Unit Weight	10 lbs / 5 Kg
--------------------------	---------------

Packaging Weight & Dimensions

Package 1 Net Weight	10 lbs / 5 Kg
-----------------------------	---------------

Package 1 Width	12 in / 30.48 cm
------------------------	------------------

Package 1 Gross Weight	15 lbs / 7 Kg
-------------------------------	---------------

Package 1 Height	12 in / 30.48 cm
-------------------------	------------------

Package 1 Length	15 in / 38.1 cm
