

Step-Up Transformer 208 to 240V 5kW

Key features

- Voltage Conversion: Efficiently converts 208V input to 240V output, supporting equipment that requires 240V.
- Power Rating: Offers 5kW of power, suitable for demanding industrial and commercial applications.
- Durable Construction: Built with high-quality materials for long-lasting operation and reliability.

Step-Up Transformer 208 to 240V 5kW Description

This Step-Up Transformer is engineered to convert a 208V input to a 240V output with a 5kW power capacity. Ideal for high-power applications, it provides efficient voltage conversion in industrial and commercial settings, ensuring reliable performance for equipment requiring 240V.

Technical Specifications

Unit Weight & Dimensions

Total Unit Weight	10 lbs / 5 Kg
--------------------------	---------------

Packaging Weight & Dimensions

Package 1 Net Weight	10 lbs / 5 Kg
-----------------------------	---------------

Package 1 Width	12 in / 30.48 cm
------------------------	------------------

Package 1 Gross Weight	15 lbs / 7 Kg
-------------------------------	---------------

Package 1 Height	12 in / 30.48 cm
-------------------------	------------------

Package 1 Length	15 in / 38.1 cm
-------------------------	-----------------
