

MOVIDRIVE VFD SEW 110Kw 208 Amp. + Dynamic Brake 2 x 18KW + Choke+ Encoder.

Key features

- Power Rating: 110 kW capacity, supporting demanding motor applications.
- Current Rating: 208 amps, ensuring robust performance for large systems.
- Dynamic Braking: Includes two 18 kW dynamic braking units for effective stopping power and energy recovery.

SEW EuroDrive Comms Interface Description

The MOVIDRIVE VFD (Variable Frequency Drive) by SEW EuroDrive is a powerful and versatile drive system designed for high-performance applications. With a capacity of 110 kW and 208 amps, this VFD is equipped with dynamic braking, dual 18 kW braking units, a choke, and an encoder for enhanced control and efficiency in various industrial settings.
