

MOVIDRIVE VFD SEW 11KW/14.7HP 20Amp. + Dynamic Brake + Choke

Key features

- Power Rating: 11 kW (14.7 HP), suitable for a range of motor-driven applications.
- Current Rating: 20 amps, ensuring robust performance for moderate loads.
- Dynamic Braking: Built-in dynamic brake for effective stopping and energy recovery during operation.

MOVIDRIVE VFD SEW 11KW/14.7HP 20Amp Description

The MOVIDRIVE VFD (Variable Frequency Drive) by SEW EuroDrive is designed for reliable and efficient motor control in various industrial applications. With a power rating of 11 kW (14.7 HP) and a current capacity of 20 amps, this drive features dynamic braking and an integrated choke, enhancing its performance and operational efficiency.
