

MOVITRAC VDF SEW 27.5KVA 41Amp. + Dynamic Brake + Choke

Key features

- Power Rating: 27.5 kVA, suitable for medium to large motor applications.
- Current Rating: 41 amps, delivering robust performance for demanding tasks.
- Dynamic Braking: Integrated dynamic brake system for effective stopping and energy recovery, enhancing operational efficiency.

MOVITRAC VDF SEW 27.5KVA 41Amp. Description

The MOVITRAC VFD (Variable Frequency Drive) by SEW EuroDrive is engineered for reliable motor control in a variety of industrial applications. With a power rating of 27.5 kVA and a current capacity of 41 amps, this VFD includes dynamic braking and an integrated choke, ensuring efficient operation and enhanced performance.
