

## MOVIDRIVE VDF SEW 41.2KVA 60Amp. + Dynamic Brake + Choke + Encoder

### Key features

- Power Rating: 41.2 kVA, suitable for large motor applications in industrial environments.
- Current Rating: 60 amps, providing robust performance for a variety of heavy-duty tasks.
- Dynamic Braking: Integrated dynamic brake system for effective stopping and energy recovery, enhancing overall system efficiency.

### MOVIDRIVE VDF SEW 41.2KVA 60Amp. Description

The MOVIDRIVE VFD (Variable Frequency Drive) by SEW EuroDrive is a high-performance solution designed for demanding industrial applications. With a power rating of 41.2 kVA and a current capacity of 60 amps, this VFD features dynamic braking, a choke, and encoder support, ensuring efficient operation and precise control.

## Technical Specifications
