

MOVITRAC VDF SEW 41.2KVA 60Amp. + Dynamic Brake + Choke

Key features

- Power Rating: 41.2 kVA, suitable for large motor applications requiring significant power.
- Current Rating: 60 amps, providing robust performance for demanding industrial tasks.
- Dynamic Braking: Integrated dynamic brake system for quick stopping and energy recovery, enhancing overall system efficiency.

MOVIDRIVE VDF SEW 41.2KVA 60Amp. Description

The MOVITRAC VFD (Variable Frequency Drive) by SEW EuroDrive is designed for reliable and efficient motor control in various industrial applications. With a power rating of 41.2 kVA and a current capacity of 60 amps, this VFD includes dynamic braking and an integrated choke, ensuring optimal performance and operational efficiency.
