

MOVITRAC VDF SEW 46.2KVA 65Amp. + Dynamic Brake + Choke

Key features

- Power Rating: 46.2 kVA, ideal for large motor applications that require significant power.
- Current Rating: 65 amps, providing robust performance for demanding tasks.
- Dynamic Braking: Integrated dynamic brake system for quick stopping and effective energy recovery, enhancing operational efficiency.

MOVITRAC VDF SEW 46.2KVA 65Amp. Description

The MOVITRAC VFD (Variable Frequency Drive) by SEW EuroDrive is designed for efficient motor control in a wide range of industrial applications. With a power rating of 46.2 kVA and a current capacity of 65 amps, this VFD features dynamic braking and an integrated choke, ensuring optimal performance and reliability.
