

## MOVIDRIVE VDF SEW 56.25KVA 80Amp. + Dynamic Brake 18KW + Choke+ Encoder

### Key features

- Power Rating: 56.25 kVA, ideal for large motor applications requiring substantial power.
- Current Rating: 80 amps, providing robust performance for heavy-duty industrial tasks.
- Dynamic Braking: Integrated 18 kW dynamic brake system for effective stopping and energy recovery, enhancing overall system efficiency.

### MOVIDRIVE VDF SEW 56.25KVA 80Amp. Description

The MOVIDRIVE VFD (Variable Frequency Drive) by SEW EuroDrive is engineered for high-performance motor control in demanding industrial environments. With a power rating of 56.25 kVA and a current capacity of 80 amps, this VFD features a dynamic brake rated at 18 kW, a choke, and encoder support, ensuring efficient operation and precise control.

## Technical Specifications
