

MOVIDRIVE VDF SEW 68.75KVA 104Amp. + Dynamic Brake 2 x 13.5KW + Choke+ Encoder

Key features

- Power Rating: 68.75 kVA, ideal for large motor applications requiring significant power.
- Current Rating: 104 amps, providing robust performance for heavy-duty industrial tasks.
- Dynamic Braking: Integrated dual 13.5 kW dynamic brake system for effective stopping and energy recovery, enhancing overall system efficiency.

MOVIDRIVE VDF SEW 68.75KVA 104Amp. Description

The MOVIDRIVE VFD (Variable Frequency Drive) by SEW EuroDrive is a powerful solution designed for high-performance motor control in demanding industrial applications. With a power rating of 68.75 kVA and a current capacity of 104 amps, this VFD features dual dynamic brakes rated at 13.5 kW each, a choke, and encoder support, ensuring efficient and precise operation.
